Subject: Additional clean-up SOP

Shannon,

Attached is the SOP from Test America Knoxville for the *Extraction of Polychlorinated Dioxins/Furans by HRGC/HRMS* Based on Methods 8290, 8290A, and 1613B – KNOX-OP-001. We will be analyzing the stack samples for dioxins/furans sampled using Method 0023A, using SW-846 Method 8290A. Test America had thought they had sent this SOP to us, but Mike Fuchs was not able to find it in any of the information/SOPs that had been sent to him by Test America. This SOP includes any potential clean-up of the sample extract prior to analysis.

Let me know if you need anything else. Thanks

SERVICE FIRST SAFETY ALWAYS
